2020

Õppevara väljaandmist toetavad Euroopa Sotsiaalfond ning Haridus- ja Teadusministeerium programmi „Kaasaegse ja uuendusliku õppevara arendamine ja kasutuselevõtt“ raames.

Väljaandja SA Innove, Haridus- ja Noorteamet.

Euroopa Liit
Euroopa Sotsiaalfond

Eesti
tuleviku heaks

Hariduslike erivajadustega
õpilaste õppevara arendamine

2. klassi matemaatika I osa

2. klassi matemaatika (I-III osa) digiõpiku ning selle juurde kuuluvate prinditavate töölehtede autorid on Anneli Areng ja Meelika Maila.

Digiõpiku haridustehnoloog on Mari Tõnisson.

Digiõpiku juurde kuulub õpetaja metoodiline juhend. Metoodilise juhendi autor on Meelika Maila.

Õppematerjali „Matemaatika 2. klassile“ koostamisel on arvestatud põhikooli lihtsustatud riikliku õppekava lihtsustatud õppe 2. klassi matemaatika ainekavas esitatud nõudeid.

Õppematerjal sobib kasutamiseks ka põhikooli riikliku õppekava järgi õppijate õppe diferentseerimisel, individuaalse õppekava (IÕK) alusel õppijate ning muukeelsete õpilaste õpetamisel.

Õpiku autorite järelhüüe Eve Värville – Sinu ideed ja mõtted elavad edasi meie tööraamatus.

Retsensenseerisid Eda Sempelson, Kaja Mädamürk

Toimetanud Kristi Kingo

LIITMINE JA LAHUTAMINE 11 PIIRES

176. Vaata pilti. Täida lüngad.

A visual math problem. On the left is a 2x2 grid. The top-left cell contains a dashed number '4'. The top-right cell contains a dashed number '0'. To the right of this grid is a plus sign '+'. Next is a 2x1 grid. To the right of that is an equals sign '='. Finally, on the right, is a 2x2 grid.

A visual equation showing the addition of two shapes. On the left is a 1x2 grid. In the middle is a plus sign. To its right is a 2x2 grid with a dashed diagonal line from the top-left to the bottom-right. To the right of that is an equals sign. On the far right is a 2x2 grid.

The diagram illustrates the subtraction of two 2x2 grids. The first grid has dashed lines forming two triangles. The second grid is empty. The result is a 2x2 grid with one shaded cell.

The diagram shows an equation between two products of two-point functions. On the left, the first product consists of two diagrams: one with a horizontal dashed line and one with a vertical dashed line, both representing two-point functions. The second product consists of two diagrams: one with a horizontal dashed line and one with a vertical dashed line, both representing two-point functions. On the right, the result is a single diagram consisting of two empty squares, representing the identity element.
